EXTENDED CREW COVER

RISK SOLUTIONS COVERING CREW AND PERSONNEL BEYOND STANDARD P&I COVER
IN A WORLD OF INCREASING COMPLEXITY, GARD’S OBJECTIVE IS TO HELP OUR MEMBERS AND CLIENTS MANAGE THE TOTALITY OF THEIR EXPOSURES – BOTH TO EXISTING AND DEVELOPING RISKS.
As a multi-line insurer – with the strongest rating in the marine market – Gard is uniquely positioned to understand how risks fit together, and identify the best choice of products, ensuring seamless coverage and service.

Innovation has always been a cornerstone of Gard’s business model and, over the years, we have refined and extended our standard products and introduced a range of additional products, responding to special needs and requirements from different parts of the marine industry.

Gard’s extended crew cover responds to employer’s liabilities in respect of crew and personnel, for third party liabilities incurred by the crew and personnel, as well as injury or death of a crew member’s family. The cover responds to a wide range of liabilities beyond standard P&I insurance.

Further information can be found on our webpage (www.gard.no) under “Covering risks”, or from your usual contact.

Crew or personnel in transit to seminars or training courses

IN TRANSIT TO SEMINARS
Crew member injured on way to training course while on leave
A Filipino crew member has completed a contract of employment and travelled home. He has an agreement with the ship management company to renew his contract after a period of leave. During his time at home, he is asked to attend a training course in Manila. On his way to the course he is involved in a traffic accident and suffers severe injuries.

The Gard solution
If the ship manager has taken on liability to cover illness, injury, disability or death of crew members while not under a contract of employment, he will be protected under the extended crew cover.

Liability to third parties as a result of acts of employed personnel
A chief engineer is on board a new ship as it is being constructed. The engineer makes a mistake and a piece of heavy machinery falls into the engine room. A shipyard worker is seriously injured and the engine room equipment is damaged. The worker turns to his employer for compensation under the terms of his employment contract, while the yard pursues a claim against the shipowner. Before the engineer started his work the shipowner had given an indemnity to the yard (based on strict liability).
The Gard solution
The shipowner's liability towards the yard regarding personal injury and property damage will be covered by the extended crew cover if the indemnity has been approved by Gard. Further, the shipowner's legal costs incurred in connection with the claim will be covered.

Death of crew member's wife
The wife of a Filipino crew member dies in a traffic accident. The ship manager's extended crew cover includes the optional extension for the crew's family, and according to his terms of employment the crew member is entitled to compensation in the case of accidental death of his spouse.

The Gard solution
The extended crew cover is dovetailed to the terms of employment, and the ship manager's liability is covered.
